

Drutex - Formulas in Drupal

<http://marekrychlik.com/node/5>

This is an example of an inline formula $x^2 + 2$. This is an example of a displayed formula:

$$\int_{-\infty}^{\infty} e^{-\frac{t^2}{2}} dt = \sqrt{2\pi}$$

This is the same with a label:

$$\int_{-\infty}^{\infty} e^{-\frac{t^2}{2}} dt = \sqrt{2\pi}$$

Please note that a labeled equation can be referenced in the text, e.g. the last formula was (??).

Multi-line equation:

$$\begin{aligned} \int \ln x \, dx &= \int 1 \cdot \ln x \, dx \\ &= x \cdot \ln x - \int x \cdot \frac{1}{x} \, dx \\ &= x \cdot \ln x - x + C \end{aligned}$$
